

Certified for Microsoft Dynamics® Solutions

Proven. Tested. Recommended.

When you only have time to work with the best, choose solutions that are Certified for Microsoft Dynamics.

You get approached nearly every day by companies who want you to recommend their third-party solutions to your customers. If only you had time for due diligence on all these solutions! Microsoft developed the Certified for Microsoft Dynamics program to help you make the best choices for your business and your customers. Solutions that are Certified for Microsoft Dynamics are thoroughly tested, recommended by customers, and proven to meet Microsoft's highest standards for partner solutions. They offer integrated, ready-to-deploy solutions that can help you meet your customer satisfaction and profitability goals.

DELMIA Ortems PlannerOne Production Scheduler has earned the Certified for Microsoft Dynamics accreditation.

Help boost your bottom line with proven, tested solutions. Certified for Microsoft Dynamics

- Ready-to-deploy for specific industry and business needs
- Tested to meet Microsoft's highest standards
- Recommended by other companies in the industry
- Supported and backed by a viable company

Here it is.

See how choosing Certified for Microsoft Dynamics solutions have helped these companies:

Dalosy

"The fact that our solution is Certified for Microsoft Dynamics proved to us that the Service Management Module is an integral part of our Dynamics system with the same quality and look and feel, and therefore much easier to use."
Jan Penning, General Manager

JYSK Canada

"Because our e-Commerce solution is Certified for Microsoft Dynamics, JYSK benefits from confidence in knowing that the solution is proven, easy to support, and backed by the expertise of a Microsoft Gold Certified Partner"
Grettir Bjornsson, IT Manager

Choosing a solution that's Certified for Microsoft Dynamics can give you the proof you need.

Production Scheduler—Proven. Tested. Recommended.
